

ASSISTANT SECRETARY OF STATE

WASHINGTON

January 14, 1947

STAT
Dear [redacted]

Your "B" wire to the New York office of the International Broadcasting Division has been in operation now for two months. This wire, together with the extension of the "A" wire from 8 to 16 hours daily, has given our program staff a greatly improved and needed service.

As we improve our relay facilities overseas by the addition of transmitters at Munich and other places, the usefulness of your monitoring materials to our "Voice of America" programs is increased. Our need for your coverage of the USSR radio output is an example of this.

STAT
[redacted], Policy Coordinator in OIC, will follow-up with you on any changes in our requirements occasioned by the inauguration of our Russian broadcasts.

Very truly yours,

(Signed)
Deputy t
